Work Experience:

- [HR Cloud](#), Split - Intern, (*3 months [jun - sep] , 2021*) responsibilities included learning Microsoft .NET and AngularJS, but I left due to lack of mentorship, not defined tasks alongside college duties.
 - [Nimbora](#) Freelance job done (*February 2024 - 43h*), done basic frontend components in NextJS, the team was very satisfied with the work done.
 - Rent (*summer 2022 - now*) - In my home, I am managing two apartments. Taking care of bookings, cleaning and hospitality.
 - E-commerce management (*summer 2022 - now*) - Managing a family-owned e-commerce business specializing in kitchenware. Uploading products, maintaining inventory, optimizing SEO, and running FB/IG ads. Writing promotional blog posts and creating product marketing visuals.
 - Web Development & IT Projects (Academic & Freelance) (*2019 - now*) Built APIs in Node.js & Koa, with SQLite databases for academic projects. And with mongoDP for personal projects. Designed modern, responsive front-ends using Next.js, Tailwind CSS, and JavaScript.
-

Skills:

- Programming languages: React, Node.js, Next.js
 - Frontend technologies: Tailwind CSS, CSS
 - Familiar with basic GitHub functions
-

Additional info about me:

- Completed numerous online courses to enhance my skills.
 - In my free time, I engage in sports, walking and reading.
-

Online courses

- **freecodecamp**
 - my first encounter with web programming
 - cannot access certifications because of bad authorization on a web-page
 - Responsive Web Design
 - Front End Development Libraries

 - The Complete 2024 Web Development Bootcamp - My first udemy course, taken in 2020., cant access certificate because of some bug

- The Complete Python/PostgreSQL Course 2.0

- Build an app with ASPNET Core and Angular from scratch

Certificate no: UC-021612fc-e8f3-4ae2-8485-7455af2a8267
Certificate url: ude.my/UC-021612fc-e8f3-4ae2-8485-7455af2a8267
Reference Number: 0004

CERTIFICATE OF COMPLETION

Build an app with ASPNET Core and Angular from scratch

Instructors **Neil Cummings**

Bruno Bilandžić

Date **Sept. 27, 2021**

Length **28.5 total hours**

-
- Node with React: Fullstack Web Development

Certificate no: UC-6831c2df-650e-49f5-aeff-at0b3f024360
Certificate url: ude.my/UC-6831c2df-650e-49f5-aeff-at0b3f024360
Reference Number: 0004

CERTIFICATE OF COMPLETION

Node with React: Fullstack Web Development

Instructors **Stephen Grider**

Bruno Bilandžić

Date **Feb. 28, 2022**
Length **26 total hours**

- React, NodeJS, Express & MongoDB - The MERN Fullstack Guide

Certificate no: UC-2a099b0f-6901-460a-bec4-5b46585a0ed9
Certificate url: ude.my/UC-2a099b0f-6901-460a-bec4-5b46585a0ed9
Reference Number: 0004

CERTIFICATE OF COMPLETION

React, NodeJS, Express & MongoDB - The MERN Fullstack Guide

Instructors **Academind by Maximilian Schwarzmüller, Maximilian Schwarzmüller, Manuel Lorenz**

Bruno Bilandžić

Date **Nov. 18, 2022**
Length **19 total hours**

- **Github repositories**

- <https://github.com/brunobilandzic/simon-says> - Vanilla JavaScript connected to mongodb database, Simon says game, done after first udemy course (*status: complete*)
- <https://github.com/brunobilandzic/affiliationschema> - Embedded JavaScript Templates social media site for posting, commenting and liking posts, backend with Node.JS, Express and MongoDB (*status: complete*)
- <https://github.com/brunobilandzic/mychiefpals> - School project, using Embedded again with SpoonacularAPI, for generating recipes based on filters, every user has 5 credits/day (*status: complete*)
- <https://github.com/brunobilandzic/spomenarapp> - My bachelor degree project, creating questionnaire notebooks for your friends to answer, first project in which I used all of the components of MERN stack (*status: complete*)

- <https://github.com/brunobilandzic/learn-app> An faculty course tracking application developed using Angular,ASP.NET Core, and EntityFramework. It provides features for tracking courses, exams, and learning tasks. *(status: complete)*
- <https://github.com/brunobilandzic/driving-school> - Second internship project, same technology stack for creating driving school. Implemented functionalities: management of students, instructors, vehicles, driving lessons, exams and payments *(status: complete)*
- <https://github.com/brunobilandzic/vegme> - MERN Stack, platform for connecting cooks and users to deliver weekly or one-time meals *(status: incomplete)*
- <https://github.com/brunobilandzic/share> - NextJS + MongoDB, application for sharing real life items between members of different groups *(status: incomplete)*
- https://github.com/brunobilandzic/make_suggestions System for shuffling items and making combinations from a CSV list of items in different categories between multiple entities. Used for succession distribution among successors. I use Python when I want whenever I need to solve some real life problems
- https://github.com/brunobilandzic/blog_knet OpenAI agent to generate blog posts for e-commerce website. Three ways to use it. Via console, via python file and via parameters json file

Conclusion:

I am a motivated individual seeking challenges and opportunities for growth in the real sector. I possess a wide range of initial skills in the field of computer science, with a special focus on frontend technologies. I got my bachelor degree at FESB, Split Croatia, and now I have only final exam left to get a masters degree at OSS Kopilica, Split Croatia.
